

# Understanding Jupyter Notebooks

---

**Janani Ravi**

CO-FOUNDER, LOONYCORN

[www.loonycorn.com](http://www.loonycorn.com)

# Overview

**Exploring the notebook interface**

**Creating and executing code cells**

**Working with markdown cells**

**Restarting kernels and executing all cells**

**Exploring and customizing keyboard shortcuts**

**Activating the Python 2 and R kernels**

**Exploring line magic and cell magic commands**

# Demo

**Exploring the notebook interface**

**Working with code cells and  
markdown cells**

**Creating custom shortcuts**

# Demo

**Exploring notebook limits and shutting down kernels**

Demo

**Installing and activating the Python 2  
kernel**

Demo

**Installing and activating the R kernel**

# Demo

**Exploring line magic and cell magic commands**

# Summary

**Exploring the notebook interface**

**Creating and executing code cells**

**Working with markdown cells**

**Restarting kernels and executing all cells**

**Exploring and customizing keyboard shortcuts**

**Activating the Python 2 and R kernels**

**Exploring line magic and cell magic commands**
